

## / BIOGRAPHY //

### **Ralf Großhauser is Managing Director of VOLLMER**

**Ralf Großhauser has been Managing Director of the international VOLLMER Group, which has its headquarters in Biberach an der Riss, Germany, since February 2025. He brings with him many years of experience with machine tools, strategy development and corporate management and complements the strategic orientation of the Swabian mechanical engineering company with his sound expertise in production and development.**

“As a tech-savvy strategist with a wealth of experience from the SME sector, I would like to further strengthen VOLLMER’s long-standing position as a market leader for technology and help shape the future of the company with new impetus,” says Ralf Großhauser, Managing Director of the VOLLMER Group.

Before joining Biberach-based sharpening specialist VOLLMER, Ralf Großhauser was Chairman of the Management Board of Zeppelin Power Systems, a Zeppelin Group company specialising in drive and energy systems. Prior to this, he was Spokesman of the Management Board at tegimus holding (Thermamax Group) and held various management positions at MAN Energy Solutions. He started his career in metal-cutting production, which means he also knows the requirements of machine tools from the user’s perspective. With his dual qualification as an engineer and business graduate, as well as having studied in the USA, he is ideally equipped to take VOLLMER forward internationally.

### **About the VOLLMER Group**

With its comprehensive range of machinery, the VOLLMER Group – which has sites in Germany, Austria, Great Britain, France, Italy, Poland, Spain, Sweden, the USA, Brazil, Japan, China, South Korea, India and Thailand, as well as representative offices in Taiwan and Indonesia – enjoys global success as a tool machining specialist in the areas of both production and service. The technological leader's range of products includes the most advanced grinding, eroding, laser and machining tools for rotary tools and circular saws in the woodworking and metalworking industries, as well as for metal-cutting band saws. In offering this, VOLLMER draws heavily on the company's long-standing expertise and its strengths: Local contacts for efficient communication channels, quick decisions and rapid action by a family-run company. The VOLLMER Group currently employs approximately 800 workers worldwide, with around 580 of these at the headquarters in Biberach alone, including more than 75 trainees. The company invests around eight to ten per cent of its turnover in the research and development of new technologies and products. The VOLLMER Group is a reliable partner and provider of technology and services to its customers.
